Mr. Kent Anderson

Dear Mr. Anderson:

Thank you for your recent letter to Chairman Greenspan in which you asked for his assistance.

Chairman Greenspan receives a great number of letters daily, and many of those letters do not relate to his official duties or the Federal Reserve's activities. While he appreciates your entrepreneurial spirit and inventions, as a public figure with many daily responsibilities, he is unable to reply to your letter or offer assistance.

Again, thank you for taking the time to write.

Sincerely yours,

Trademark : Future Skin

Dear Mr. Hoffman:

I hereby appoint Alfred C. Schultz as my agent. I am concerned by your actions; especially when I have FUTURE LOOK filed before you. Your Client Filed FUTURE SKIN after me. Not one examiner even brought up your case.

Also I have enclosed my web page to show who you are opposing. Hereby to inform you of the public domain, I have ads in BULLS and BEAR, as well as other means. I have been looking for a company to take this to the USA stock exchange. I am and have been looking for funding. I Could, will hold your client responsible for any damages that by their actions caused to me by any means thereof, in the United States, United Kingdom and elsewhere.

In my conversation with your associate, she indicated that she was happy that I was willing to work with them and that there was no conflict because of the letter sent to the Trademark Office. And We Dont Have To Send You Our Agreement . I Had Said There Was No Conflict Because I Dont Have Means Available To Me As Your Client . Then I received your letter indicating that I had offered to work with you, but you wanted global rights. regardless of my pending rights in the USA and United Kingdom. You offer no royalties.

Because of your decision, I am going to wait for the Trademark Trial and Appeal Board decision which applies to the United States.

Then I Will See Who Offers Me The Best Opportunity .

The offer for licensing agreements to This And My other pending-rights is still available I Would Still Like To Work With You . As My Agent Letter Reconfirmed To You Dated June 21 2003 .

Dear Mr. President:

Thank you for your reply. Thank you also to your staff to make this opportunity to correspond with you. I believe in thore lifo there must be a reason for things to happen. I admire your commitment in helping others and for maintaining world peace.

I also have many ideas for our country and this world. I am excited about the future and outer space. I too admire Kennedy and his accomplishments as he saw into the future and what it could do for people and generations to come.

Mr. President, I have this dream as I had described in a previous letter the Future SM to build a marketplace to bring in new markets and build new industries anywhere where people will be able to come and test their ideas.

I believe the future lies in every one of us. We all have dreams for this world. I am concerned about the people of this world and the future. Every individual is unique in our world because we are different. I would like the dream Future SM in vision to help any people regardless of limitation to accomplish their dream.

If you look back at our history, many of our industries exist because of them and their dreams. I have immense and huge file with our prestigious trademark office with many aspects of this dream of mine and other. I am a person who is worried about how to protect this dream of the future. I know it will support many people and help launch their dreams. We need especially need to recognize our retired people who possess knowledge and experience to be preserved for future generations. I believe we won't be remembered for our money but what we have done in our achievements. Also we will live on through people that we touch.

Please review my trademark file to see how serious I am. When we all succeed, we all can benefit. Economic advances and more opportunities will be provided. We can't afford to loose this dream for the sake of people and their families.

There are many laws that govern our trademark. The cost factor to protect and preserve ideas for the future are considerable. I need to find a way and individuals that are concerned about the future of the world and its people and the ability to invest into Future SM.

I look forward to your response. Any questions or concerns pleas call me at 701-223-0639.

Sincerely,

Kent Andersonn

Dear Mr. Anderson:

On behalf of President Clinton, thank you for informing him of your work.

Unfortunately, the President cannot personally support or endorse all of the worthy projects brought to his attention. As you can imagine, President Clinton receives numerous requests to promote such causes. However, a long-standing White House policy cautions against the use of the President's name, likeness, activities, or words in connection with any such endeavor, regardless of its merits. This policy applies to both non-profit and for-profit efforts.

The President appreciates your interest and sends his best wishes.
